Thank you for your purchase of List Warrior! Hopefully you've had a chance to review all of the videos that are included with your purchase and are eager to start publishing and earning with your own list-building machines.

Before you do that though, we want to get your mind racing. We've included these case studies because we want you to read first-hand, unsolicited experiences from people who are growing fast and absolutely **CRUSHING IT** by using the secret software that you've discovered.

We wanted to share these because it gives you the opportunity to see EXACTLY how they're doing it – and even more importantly, how they're leveraging the resources and additional income streams available to them to earn even higher payouts and **"bonus cash"** (via affiliate offers, their own products, etc.) using this amazing system.

Here are the stories and case studies of those who are crushing it. Review their stories carefully so you can harvest ideas for profiting even more from your own Warriors that you're sending into battle...

CASE STUDY #1: Ryan Holiday and Noah Kagan

"Ryan Holiday ran a giveaway last month and got 6,144 subs in two weeks. Over past few years, giveaways have helped grow Noah Kagan's personal email list by 52,919 email subscribers."

CASE STUDY #7: \$1,491.13 from 2 E-Mails

"We pocketed \$1,491.13 from just 2 E-Mails we sent out by using a simple "review video" and including a bonus to incentivize those to purchase... you can follow the same method for your List Warrior subscribers to boost affiliate commissions for other people's products. Don't have a bonus? You can offer your personal time and consultation, or purchase private label rights content to give away as a bonus.
